Registering for an Australian Business Number (ABN)

An ABN is a unique number that identifies your business to other businesses and the Australian Taxation Office (ATO). An ABN is all you need to deal with the ATO and other government departments. It will help you claim GST credits and fulfill your requirements for reporting your business activity to the ATO.

Anyone who operates a business should have an ABN.

Cost \$66 (inc. GST) or \$55 (inc. GST) to reactivate an ABN that has previously been cancelled.

Registering for GST with the ATO.

All business operators are able to register with the ATO and claim GST credits. Larger businesses must register for GST. If you do not have an ABN you can't claim GST credits and any amounts you receive from another business are taxed at 46.5%.

Registering for GST is important for the efficient running of your business.

TFNs are also needed to lodge an income tax return and for superannuation reporting requirements.
